EXHIBITION CATALOGUE.

Starlight Eyes
New Works by Claudio Kirac

ABOUT THE EXHIBITION.

Starlight Eyes; Claudio Kirac's fourth solo exhibition; explores both the joy and anxiety surrounding societal milestones, in particular parenthood.

Working intuitively and combining various media, Kirac explores self-identity by drawing on notions of heartbreak, loss, love and hope. Change and metamorphosis are examined through mixed media drawings and large-scale abstract works that shift between nostalgia and the artist's personal reflections on the present day.

In this monumental output of new work, Kirac has pushed to produce intense and shifting practical outcomes. A fresh studio space establishes a renewed context for the artist.

Kirac is known for his multi-disciplinary approach to practice, working across painting, design, photography and installation, aiming to transcend the boundaries between analogue and digital processes and outcomes.

Claudio lives and works on the Gold Coast, Australia. His career spans more than 25 years with his work in the collections of HOTA Home of the Arts, The National Library of Australia and Louis Vuitton Asia Pacific.

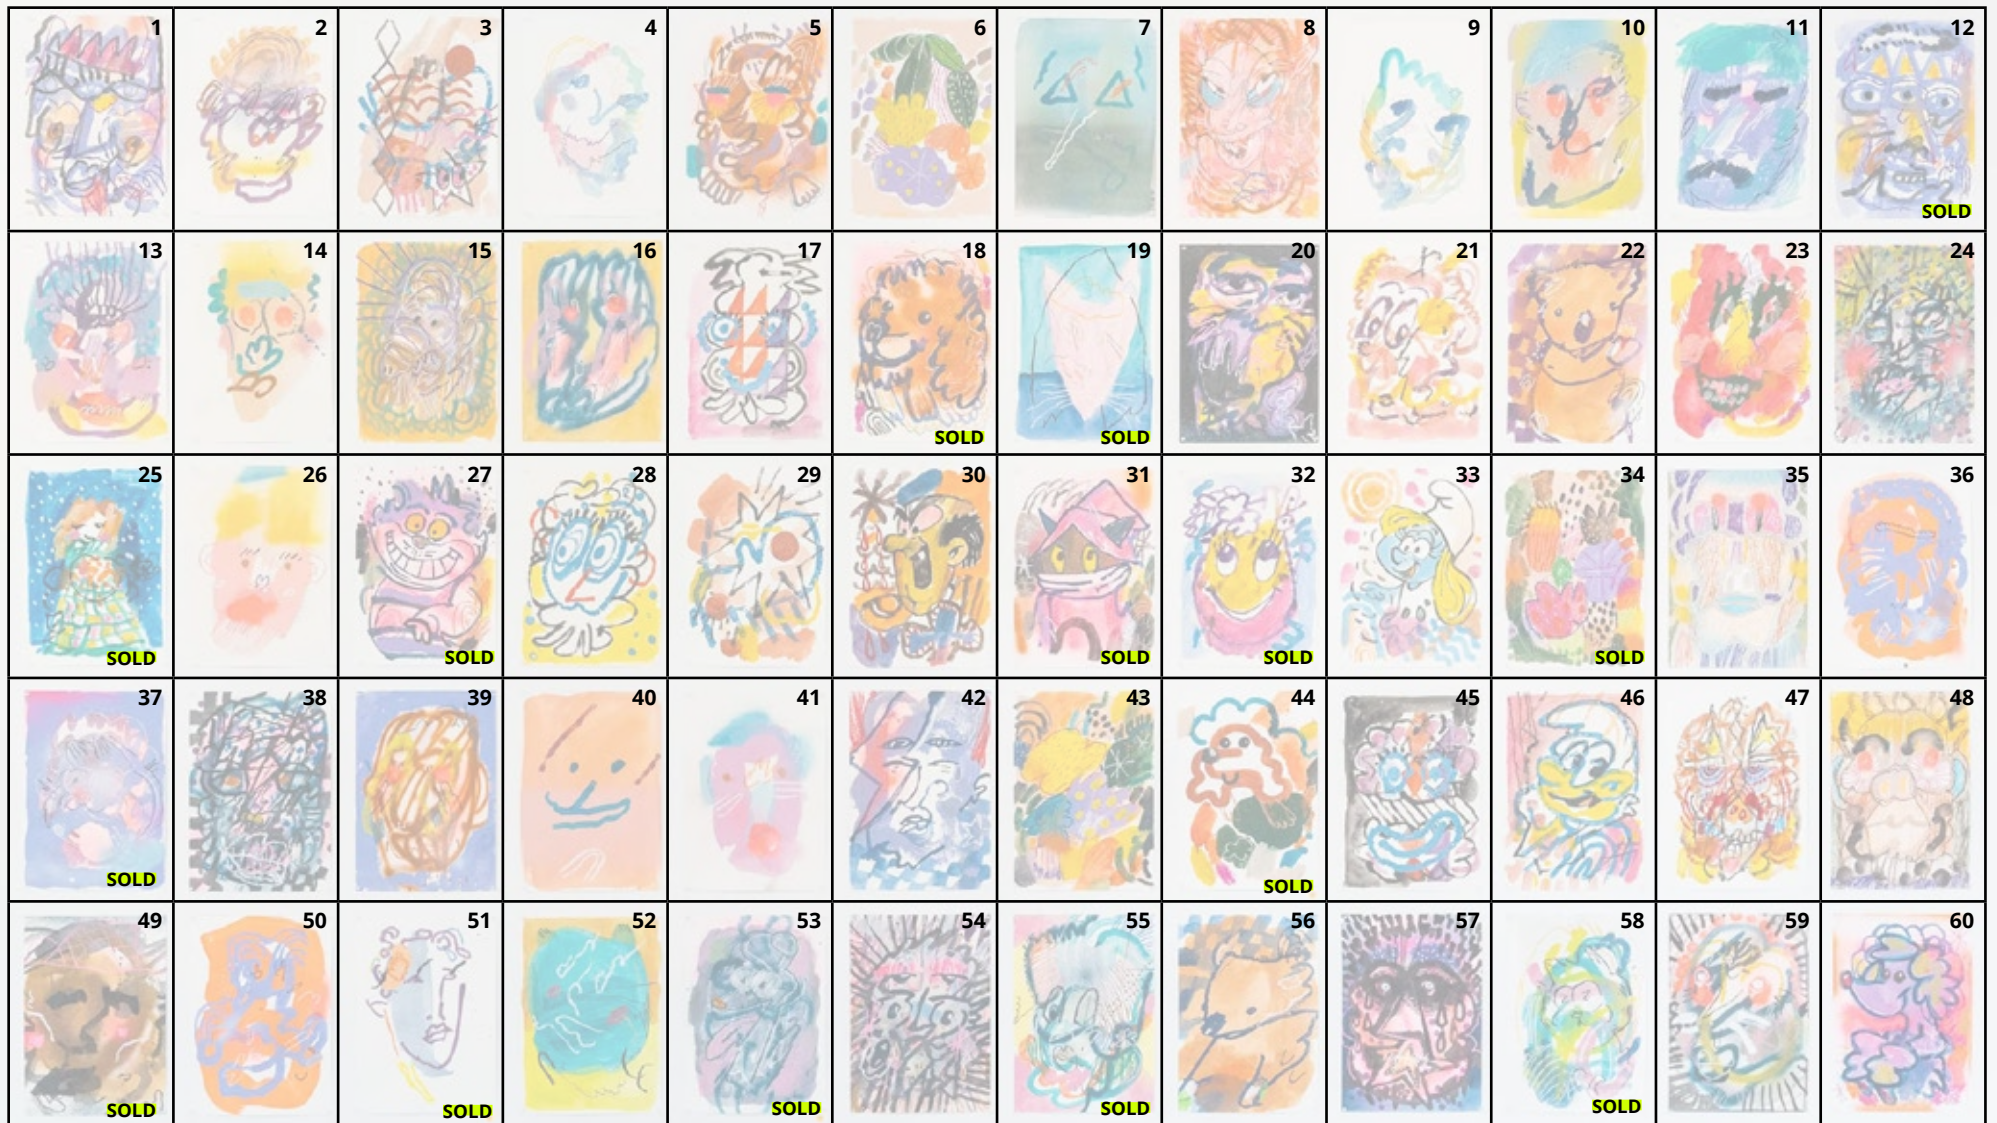

Starlight Eyes is presented by Art-Work Agency and proudly supported by:
